**ARCHIVES AND MANUSCRIPT COLLECTIONS GUIDE**

The Society’s archives and manuscript collections range from documents of the District’s early history to the historic records of existing organizations. The following list includes all major collections that have been processed or are currently in process. Some collections may be listed in more than one category. In addition, the library maintains a file of single-folder collections, which includes a variety of documents that span the District’s history and relate to many prominent Washingtonians. Only a few of these are listed below.

Catalog records for HSW’s processed collections are accessible through the **ONLINE CATALOG**. In the “**Advanced Search**” mode, select the Archives database and enter the collection number in the “call number” field, adding leading zeros and enclosing in quotations; e.g., “MS 0064.” Full-text finding aids in PDF format are attached to the catalog records and may be downloaded from the website.

One may also do a “**Finding Aid**” search, which is a keyword search across all of our finding aids in PDF format (including photograph collection finding aids). The catalog record will be attached.
